## ***ABOUT US***

Wellco Peruana is a specialized footwear manufacturer with over 60 years of experience, focusing on Military, Law Enforcement and Safety footwear. Our three facilities in Lima, Peru total over 15,000 square meters for manufacturing and distribution.

Our main production lines include:

- DMS (Direct Molded Sole) for vulcanized Panama rubber soles
- Direct Injection process (Dual Density PU, PU/Rubber and PU/TPU)
- Goodyear Welt system.
- Cementes Soles

Wellco Peruana S.A. maintains a strong commitment to produce and provide a product, which is made with pride and quality. Quality is not just a goal; it is our strategy to keep our customers for life.

## ***OUR MISSION***

---

To serve our domestic and international community better by providing industrial safety, military and dress footwear that consistently meets our customers's requirements. We achieve this by promoting the comprehensive development of our staff, encouraging innovation and initiative corporate identification trough the use of appropriate manufacturing technology.

## ***OUR VISION***

---

To maintain our leadership in the domestic market and consolidate our position internationally as suppliers of industrial, military and dress safety footwear.

Outsole*

# OUR OUTSOLES

## **PANAMA**

Tread pattern created during the Vietnam War, designed to maximize drainage channels and high traction for extremely difficult terrain. (Materials: 100% Rubber)

## **R.A.T**

As its name suggests, Rough All Terrain, this is a multi-directional tread pattern designed for all types of terrain, maximizing grip, traction, and durability. (Materials: PU or PU-Rubber)

## **WPRO**

This design offers excellent grip by maximizing the contact area while maintaining adequate drainage channels. It also offers great comfort thanks to the Absorber System in the heel. (Materials: PU or PU-Rubber)

## **LITE**

High traction design with high, multi-directional lugs, ready for various types of terrain. Stabilizer central heel lug add comfort and safety for the user. (Materials: PU or PU-TPU)

## **OXFORD**

Stylized design with an oval center axis and mixed texture to maximize slip resistance. Perfect fit for formal uniform shoes. (Materials: PU or PU-Rubber Inserts)

## **SNK**

Urban design with low multidirectional lugs and different textures, increasing grip in various situations with different angles of attack. (Materials: 100% rubber)
